LETTERS**Is CIA Playing With Fire?**

To The Editor:

I see by The Miami News that the CIA is now empowered to wage "undeclared war."

I also see by the handwriting on the wall how World War III will start. I hope, however, that Mr. Dulles will notify our President at least 24 hours before starting it, because it would be very embarrassing if Mr. Kennedy and Mr. Khrushchev were in the midst of a peace talk when the first bomb went off.
